CHAIN SAW SELECTION GUIDE

Make wood cutting easier, quicker and simply more satisfying with a quality chain saw that will cut through the work in no time.

Does size matter?

- Consider what you need the saw for: a 16" guide bar can cut almost twice its length.
- You need power, but extra power adds weight. Consider the task and seek advice. Make it safe, make it easy.
- Check for safety features like an inertia chain brake, side chain tensioning and a chain catcher.
- Choose a well-balanced machine with a good power-to-weight ratio: light enough to handle with the power to do the job.
- Ease of use – Can you confidently start and operate the saw? Are controls accessible and simple to operate?

Visit your local STIHL Dealer for expert advice. They will guide you on the most appropriate saw for your needs and supply relevant safety clothing and accessories.

LIMITED TIME ONLY

Added power and comfort for use on large properties and farms, and for firewood.

How To Keep Your Hedges In Shape

To trim your hedges into an even, beautiful shape, you might want to use strings (or a measure laser) as guidelines. First you get rid of the "main offenders", large branches sticking out, then get down to the fine pruning. Hedge sides should be trimmed wider at the base to provide maximum light and sun for the exposed leaves. So, what has to go? If you're trimming it down for regrowth you can focus on long branches in the middle whereas if you're just "fine-tuning" you can concentrate on shape, evenness and thinning out. Start from the top and work your way downward. Also remember to fertilize the hedge to give it energy and to stimulate further growth.

TRIMMING & PRUNING

STIHL's gas hedge trimmers are specially designed for comfort, balance and productivity in landscape gardening.

To Our Valued Customer:

It takes more than a quality product to be an industry leading brand. It requires a committed approach to provide outstanding customer service, consistent product innovation, and exceptional value. STIHL has been dedicated for over 90 years to providing the best outdoor power equipment to help you get the job done. For these reasons our dealership is proud to carry STIHL outdoor power equipment.

STIHL is one of the most trusted brands by homeowners and professionals. Our dealership's knowledgeable staff and factory trained technicians are ready to service you. We invite you to visit our showroom and experience the difference a first-class quality outdoor power equipment dealer can make for you!

Thank you for your continued business,

Pricing on all chain saws, power tools and accessories will remain in effect until December 1, 2017. The goal of STIHL Limited is to produce truthful and accurate advertising materials. In the unlikely event of a printing error, the local STIHL Dealer has the final authority to set product pricing. Pricing valid at participating dealers only.
